我也注册了2个，后来德国朋友告诉我，这玩意德国注册免费，纳尼？又被割了波韭菜。

接过网址：<https://lucid.verpackungsregister.org/>，

有英文版，好歹也能看个大概，朋友本来想帮我注册，这波学习的机会，怎能放弃，让我自己来。

先上图片，官网写着免费！免费！免费！！！！

## What packaging do you place on the German market?

There are two possible categories for your packaging: packaging subject to system participation and packaging that is not subject to system participation. Within these categories, list the packaging that you place on the German market for the first time commercially as a producer within the meaning of the Verpackungsgesetz (Packaging Act). Basic principle for the purposes of the Verpackungsgesetz: a producer is anyone who is the first to fill packaging with goods. Further information about producer status can be found here.

If you place packaging subject to system participation on the German market, please state whether it is retail, grouped and shipment packaging, subject to system participation or whether it is exclusively pre-participated service packaging. If you place packaging not subject to system participation on the German market, please indicate accordingly as applicable.

You can refer to the system participation requirement catalogue to figure out whether or not a type of packaging is subject to system participation. The catalogue is a database that allows you to search for products or articles of packaging and determine their system participation requirement status directly for yourself. You can access the catalogue here. For further details, refer to the basic information and the catalogue guidelines.

The Verpackungsgesetz defines the present provisions. The following is intended to provide guidance; the examples are not exhaustive.

### Packaging subject to system participation

#### 我只选了这个，其他的都空着了

Retail, grouped and shipment packaging that typically accumulates as waste with private final consumers / comparable sources of waste generation after use, and service packaging.

The selection should be made by anyone who fills empty packaging for the first time with goods and hands it over to final consumers or distributors on a commercial basis in Germany and that packaging typically accumulates as waste with private final consumers. Manufacturers of packaged goods are one example. This selection should also be made by mail order and online retailers that fill shipment packaging with goods and send it.

The selection should also be made by first distributors of service packaging such as bakeries and restaurants or takeaway providers who have not purchased pre-participated service packaging. Additionally, upstream distributors (e.g. suppliers, wholesalers) that have undertaken system participation on behalf of the first producer should make this selection.

Private final consumers include private households and, because of the nature and quantity of the packaging waste that accumulates there, so-called comparable sources of waste generation such as restaurants and accommodation establishments, commercial kitchens and canteens, as well as offices of freelance professionals, business and educational institutions. Furthermore, this includes craft enterprises and agriculture holdings where their packaging waste is collected at the rate that is normally associated with private households and it is waste for that does not exceed 1 t/dt/ha per collection group.

#### Exclusively pre-participated service packaging

Final distributors such as bakeries, restaurants or takeaway providers should make this selection. If they use these all of their packaging exclusively with pre-participation.

Now only two steps are needed before you can send your application of registration. Please enter your registration data in the input fields.

## Which brand names identify your packaging?

Please enter the brand names you use to place packaging filled with goods on the German market for the first time as a producer / initial distributor. Information about product status can be found here:

Brand name means the words on the packaging that set it apart from other brands. The brand names need to be categorized by packaging subject to system participation and packaging that is not subject to system participation. If you do not use any brand names to identify your packaging, enter your company name.

Please only enter your own brands that you are responsible for as a producer. The brand names of trading goods sourced from within Germany that you simply sell should not be listed. Please do not enter any sub-brands, the names of the umbrella brands suffice. Please also do not enter:

- type designations, article specifications, model designations (e.g. headphones A10, headphones A100)
- quantities (e.g. 100g, 100g)
- product descriptions (e.g. headphones, advertising etc.)

## 2. 法国篇

自各大跨境电商平台出台关于EPR的法规后，卖家们无不在时刻关注EPR的动向，而之前注册的法国EPR，而今已在陆续下发。

近期有收到不少卖家朋友疑问：**怎么才能知道自己的法国EPR是否生效了？**

跟德国EPR一样，法国EPR也有可以在官方查询的地方。

### **如何验证法国EPR有效唯一识别号（UIN）**

每个回收品类有不同的UIN，一般格式是FRXXXXXX\_CODE，XXXXXX=数字编号，CODE=两位数字类目及四位英文随机编码。

UIN核实有2种方式：

- 1、登录自己的账号，查看后台**
- 2、进Syderep官网核实**

**操作步骤↓↓↓**

**第一种方式：登录自己的账号，查看后台；**

登录入口如下图↓

当公司的法国EPR申请被官方接受后，官方会给注册的邮箱发送一份激活邮件，如下图；

第一步：点击邮件中“Choose my password”修改密码，然后直接跳转至公司账号页面，如下图；

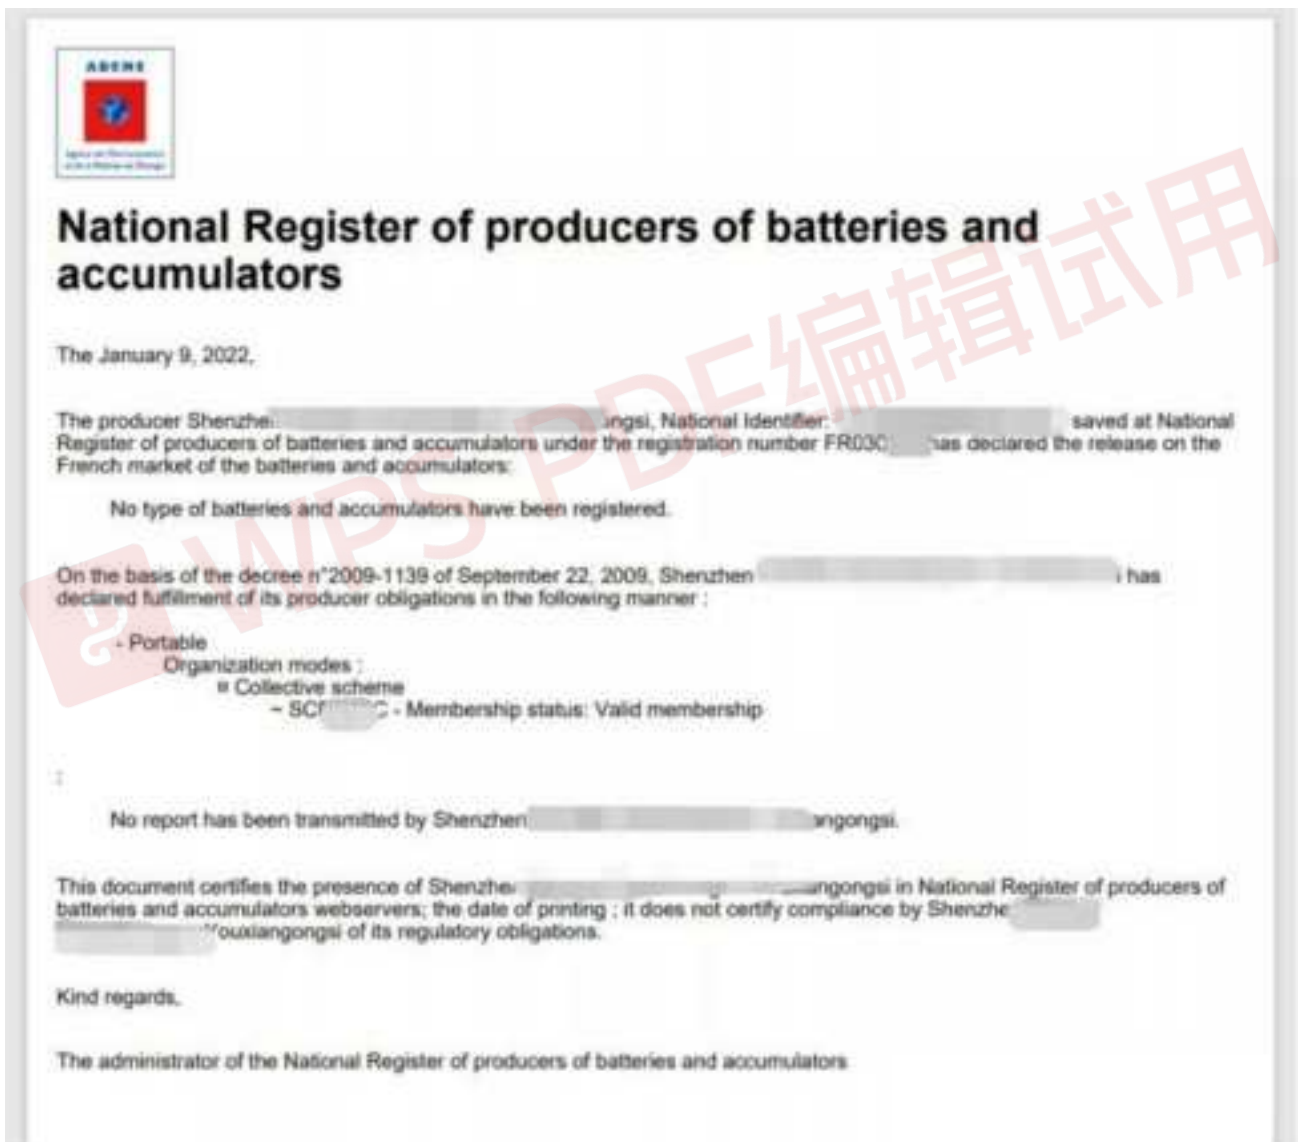

橘色部分表示该项目已注册成功，若是灰色则表示没有注册。

第二步：点击“My Account”，查看自己的账户信息；

此处可看到注册的电池品类，且已有注册号。

第三步：点击绿色的“certificate”即可下载证书，下图为证书模板，部分卖家的证书可能会与图中的有偏差，但也是正常的。

第二种方式：进Syderep官网核实；

第一步登入网站：

<https://www.syderep.ademe.fr/en>

第二步：在搜索框内输入公司英文名，如“shenzhen”，然后点击绿色键“Search”，进入查询页面；

第三步：因为“shenzhen”这个词范围比较大，若想更精准的找到自己公司，可在“SIREN/SIRET”处输入自己公司信用代码，便只能看到自己公司信息了，如下图。

大家可能有留意到页面左侧的几个分类，根据图标和英文可以大致理解出意思：

至此法国EPR的验证流程就结束了，是不是非常简单？卖家朋友可以按照流程自查或联系为您查询哦。

## 写在最后

随着欧盟各国对EPR合规的要求，卖家对于销售产品必须符合EPR要求，否则将面临最高100万欧元罚款、产品下架等处罚。
